If you're not interested in details and just want to get more real and active followers, start using the best Instagram follower app here. (1 week Free Trial + A Guide Tour) But if you're still looking for other fan apps to gain more followers, here's the top 10 Instagram follower apps to find and get real followers in 2020. Get more app for Instagram followers running in 2020 Although there are many apps that increase the number of followers, only a few follower apps will get more real followers on Instagram. According to the latest research, a normal person has 150 casual friends. This means an average personal account has 150 to 200 followers on social media platforms like Instagram and Facebook. Imagine an Instagram follower app that has 100 - 300 more real followers per month. And at worst, only half of them ask their followers to follow you, see and like your posts. Again in the worst condition, each has 100 followers. So what you get with this Instagram follower app is over 2500 followers a month and over 5000 likes and views. This way a real Instagram follower app can help you grow easily on Instagram. 1. AiGrow - (Gain Followers App that guarantees real followers) AiGrow takes first place in the top 10 Instagram followers app list. The reason is that unlike any other Instagram followers app, this app guarantees 3000 - 4000 new Real followers. Therefore, if goals are not achieved, you can easily get your money back. Basically, this application is about getting more high quality fans Instagram. But the coolest thing about this fan app is that it has what Instagrammers need to manage IGs like a professional influencer. Tools to reach more followers and likes on Instagram As they claim, this app is a combination of an AI-powered platform and their team's Instagram experience to get real and dedicated followers. Their packages also include creating content and distributing between your accounts and viral services to enhance the exposure of your posts. You will also get a free bio link designed for your account. A sample is Rachel April Phillips. Requirements for running this Instagram follower app This fan app is one by one application (or web app) accessed by users through a web browser with only an active internet connection. So you don't have to download anything or have a specific operating system to run it. How to get more real followers Using the Safer Followers app on Instagram To start getting more followers on Instagram from AiGrow, follow these steps: Use this link to sign up for a free account: Only a name and email address are required. Add an IG and choose your desired goals: Choose hashtags, accounts, and locations to activate the AI engine. Then, wait for the app to create a list of potential followers and influencers that you can obtain as an active follower. Choose a program: Once the list is created, select the desired package from the upgrade plans (100 - 1000 followers increase per month). Schedule integration: Schedule a live meeting to review your dedicated manager's settings and start deployment activities. Deployment optimization: With your dedicated admin creating daily activities, you can check your followers' deployment statistics at any time or change settings to optimize deployment and get your desired followers. Using this tracking app is one of the safest ways to get more followers on Instagram, where they guarantee continued fan growth. In addition to the development service, you will be allowed to use their schedule, DM tool, and unlimited use of other features for free. How much does this fan application cost This application has a free 1 week trial. So you can sign up for free and try all the features without payments. After trial week, fan packages start at as low as \$9/month (for basic tools) to \$150 for the pro-managed package (which includes your access to all premium tools, creating managed content and accelerating growth). This fan app also has some Pro Packs for long runs. So the best option here is a 6 Month Pro Pack that costs \$83/month and saves \$400. 2. System requirements for using Combin as an app with windows 34-bit Windows 64-bit Windows 64-bit macOS Ubuntu Best App for buying Instagram followers in 2020 It's better to win real followers organically instead of buying Instagram followers. Still, if you're looking to buy Instagram followers, you may want to know your best options here: 3. Famoid (Buying Instagram followers not recommended at all) at all) Now, Famoid is the best choice if you're looking for an app to buy Instagram followers in 2020. They also have Likes and Views packages. At the very least, Famoid knows that a quick increase in the number of followers will make Instagram a ban on the account. How to get it to work There is no setting and just choose your desired fans package. Fill out the order form and get your followers. Key Features Followers Packs Famoid Likes and Automatic Likes Packages Views Packages Pros Instant Delivery 24 hours a day, 7 days a week support increases the number of followers gradually No credentials required Famoid fans stay with you more than other fan sellers Cons No targeted followers No active followers Buy bulk Instagram followers is always dangerous After a while, purchased followers will unfollow you gradually Price 250 Famoid Followers: \$5.95 500 Famoid Followers: \$8.95 1000 Famoid Instagram Followers: \$15.95 2500 Famoid Instagram Followers: \$39.95 5000 Instagram Famoid Followers: \$69.95 10000 Instagram Famoid Followers: \$129.95 Famoid's 15000 Instagram Followers: \$199.95 Famoid's 20000 Instagram Followers: \$299.95 Note: this video will guide you more through buying Instagram followers : Best App to get more Instagram followers for free If you're looking for free followers as a number, use a fan market app. They have a system called virtual currencies. In this system, you just follow other people in the app or like their posts and earn coins. Then you can buy followers using your coin. If you have no problem with this system, let's look at the best follower merchant app on Instagram: 4. Turbo Followers for Instagram (free Instagram follower app) Turbo fan is one of the best followers on Instagram. For a while, it'll increase your Instagram followers when you follow others. But the growth is not continuous because you have a constraint on the following number. In addition, if you don't have enough time to win coins, we don't offer it. How to make it work Visit the Turbo Followers for Instagram website and download the Instagram APK fan app or whatever your device is. Download the Turbo version that's compatible with your Turbo Open Turbo device and sign in with your Instagram account Tap Info Basic Features Follow the method. Uses hashtags that are programmed to broadcast your profile on Instagram You can use certain features to be followed by as many followers as you want Pros It is free It can be used by computer and mobile phone users of any kind that is Usable. It is guaranteed to directly provide 1000 free followers on Instagram. It provides you with a bonus for getting free Instagram likes and video views. The score was so high (4.7 out of 5). (Due to the privacy policy, Turbo followers are no longer available on GooglePlay or the Apple App Store.) Cons Free Fake Fans Doesn't give you fans in your place Time consuming system You need to follow others to get your fan number coins will drop when you reach the following following Not ideal for those who don't want to follow Instagram accounts Some features are costly Price 5. 5000 followers Pro Instagram (Android only) Another app that you follow users to win coins. Then spend coins to promote your Instagram account. This application requires android 2.3 and above. It's one of the best fan apps, if you're only interested in numbers. But the biggest problem with all free followers apps is that the number will drop when people unfollow because of the following number of restrictions. So it seems a waste loop where you can only increase the risk of being banned from Instagram. How to get it to work Download the 5000 followers pro APK file install and link To Earn Coins and get followers Key features Increase fans for free Advantages It's free Simple Cons app You need to follow others to increase your followers Not your active followers just unfollow you after a while Just designed to develop followers, no likes or other price engagement parameters Best Instagram Followers Apps for Automation Instagram auto app followers are similar to Instagram followers marketers, but the difference is that they automatically follow others. After that, they wait for the backs. Then, if the target user does nothing in a specific period, the application will automatically remove that user's tracking and go for the next. In general, automation is dangerous because of Instagram's new tracking/unfollow limits, but if you're interested in auto follower apps, the best is: 6. Instazood (iOS & Android) Instazood is an automation fan app that will automate tracking activities such as commenting and viewing stories. In addition to the Instagram bot, Instazood has a TikTok bot. How to get it to work Sign up Instazood Confirm your account in Instazood Login and add your Instagram account Key Features Automatic monitoring, such as, comment, and automatic history viewing TikTok bot Program posts Automatic instant message Pros Do not download Mobile friendly Full control of automatic follower Disadvantages Instagram can block your Page Instazood does not guarantee Increase followers Not ideal application to get followers on Instagram without following Price 7. Organic followers for Instagram (Android) By name, using this free Instagram followers app is not an organic way to attract new followers to Instagram. But the point is that it will help you find and follow users in your post automatically and wait for feedback. Instagram Organic Followers is compatible with Android 6.0 newer versions. How to get it to work Download the application and install it Add your account Set up your desired filters and run automation Key features Auto-follow Auto-unfollow Find and export the targeted users Advantages High rating (4.0 2 for 7k comments) Automatic user monitoring based on your specialized Disadvantages Sometimes being slow or crashing Automation is always dangerous (your account can be blocked) It does not guarantee the development of your followers (just automates the following procedure.) Contains Annoying Ads Price Best Instagram Instagram App to monitor fan behavior (iOS) An Instagram fan tracking app won't win, win or buy followers or likes. It's just a tool that gives you reports and analysis of your followers. However, many fake fan trackers only report inaccurate numbers. So if you're an iPhone or iPad user, the most trusted fan tracking app is: 8. Track Followers for Instagram! This app gives you the most accurate analysis of your Instagram account followers. It's free and requires iOS 9.0 or later to work properly. How to get it to work Just get out of the Apple App Store. Then open the app and sign in with your Instagram account. Now, you can track the knowledge of all fans. Key Features Tracks New Followers and Unfollows Tracking Followers Who Don't Follow Back Advantages Excellent Rating (4.3 out of 5 for 76.6k comments) Reliable Information Cons Large Size Fans app (73.4M) Annoying Ads Price Best Apps to Track Fans on Instagram (Android) If you're an Android user here's the best Instagram followers tracker app you can trust its analytics : 9.
